The desire of every organisation is to consistently deliver value to customers in a sustainable and profitable manner. To achieve this, every organisation needs to craft a strategy that differentiates them from competitors, equip their teams with leadership skills to perform at highest level, create a culture that attracts and keeps talent and deliver exceptional customer experience.

Molefe Poee is sought after leadership expert, entrepreneur, author and executive coach. He has helped many organisations improve their leadership teams and achieve exceptional results. As a John Maxwell certified leadership expert, speaker, and coach, he distils leadership concepts and makes them practical for executive teams, employees and entrepreneurs. He moves people, organisations, and teams from potential to exceptional performance.

Entrepreneurship Development Specialist

There is global consensus regarding the significant role entrepreneurship plays in contributing to economic development, driving change, and creating lasting societal impact. The entrepreneurship journey is inherently complex and difficult, with high rate of failure, in both developed and developing economies. Concerted and consistent effort is required to support entrepreneurs and equip them with knowledge and tools to start, manage and lead profitable and sustainable SMEs.

Molefe Pooe has founded successful businesses that have succeeded in challenging industries and tough trading environments. One of his flagship company, Metamorphic Engineering, experienced exponential growth and employed 150 people during its peak. He now uses his experience to help other entrepreneurs to navigate through tough entrepreneurial terrain and achieve outstanding success. Since 2016, he has worked with reputable organisations on their Enterprise and supplier Development programmes and helped over 500 SMEs through masterclasses, workshops and coaching.

These interventions are through the following services: Consulting, Coaching and Mentorship, Entrepreneurship Masterclasses and Workshop facilitation

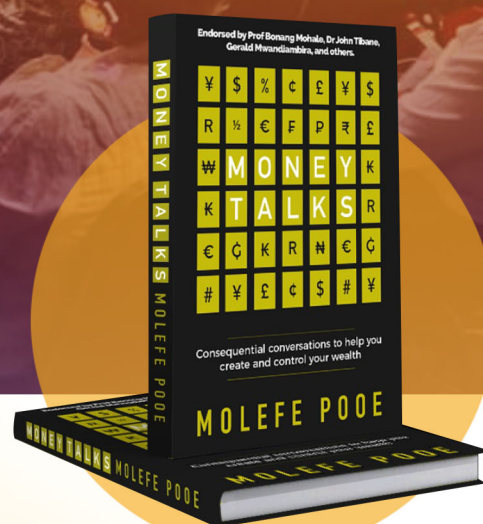

Some of the subjects covered include the following:

- **Entrepreneurship 101** -Understanding entrepreneurship
- **Entrepreneurial mindset** -developing a winning entrepreneurial mindset.
- **Growth Strategy** -crafting and implementing a 10X growth strategy.
- **Financial resilience** – Improving financial performance of your business

Money Mastery Practitioner

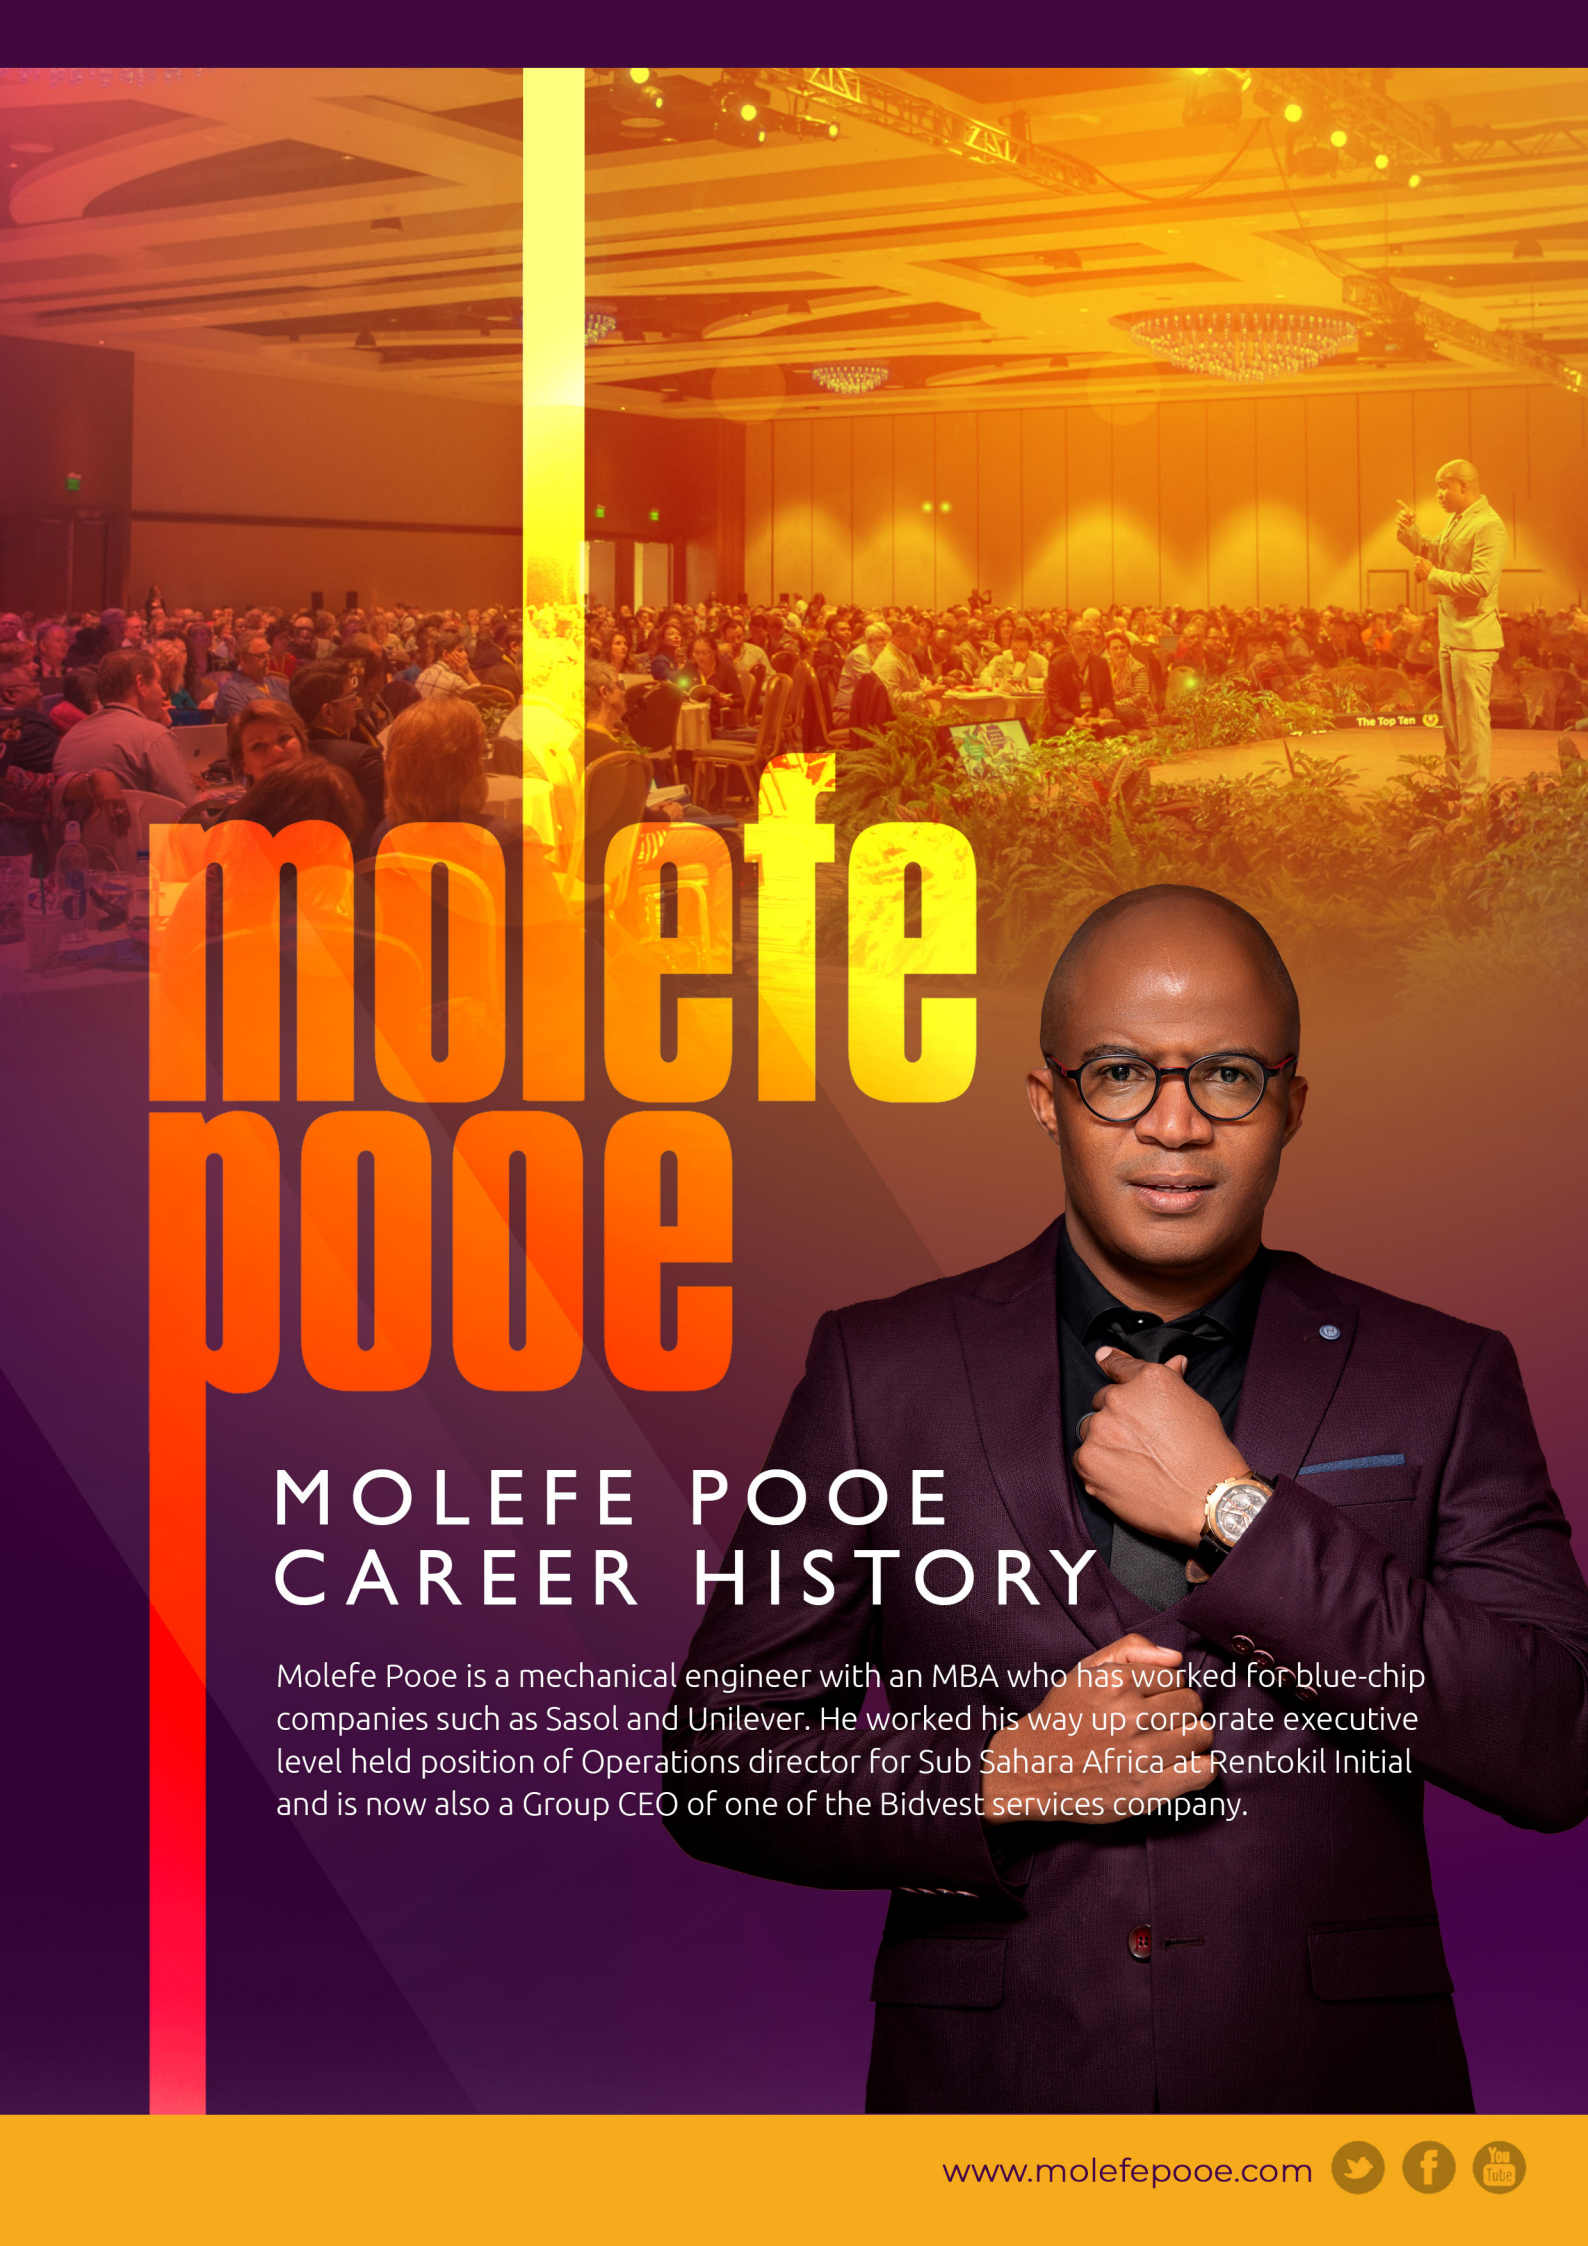

Financial wellness is the most neglected aspect of the employee wellness. Lack of financial skills is one of the main contributors to some of the financial challenges we experience. These in turn have a direct impact on our health and wellbeing. Unless the financial literacy of employees is improved, financial wellness programs will not experience lasting impact.

Molefe Pooe is an author of a book titled MoneyTalks. The premise of the book is that anyone can be financially literate and create wealth, regardless of their starting position. The book equips you with the mindsets, the tools and the skillsets designed to give you control on of wealth journey.

Through seminars and masterclasses and key notes, Molefe Pooe has helped many individuals and employees move from struggling to success in their finances. The resultant effect has been happier and more productive employees with reduced absenteeism.

KEYNOTES AND MASTER CLASSES AND WORKSHOPS

1. DISRUPTIVE LEADERSHIP

The world is constantly changing. No industry and sector is spared. Leaders have to grapple with the speed and frequency of change in their organisations. How do you prepare yourself and your team to successfully lead in this ever-changing environment? Adapting is no longer sufficient. You have to be a disruptive leader and build a disruptive organisation.

Target Audience: Executive leadership, Senior managers, first line management teams.

Key learnings and outcomes: characteristics of disrupters, key to being a disruptive organisation.

Thriving strategies.

2. EVERYDAY LEADERSHIP EXCELLENCE

The Peter principle suggest that most people are promoted into the area of their incompetence. While they may have been great at demonstrating technical ability, they still need to improve their management and leadership ability as they transition into a role of leading teams.

Target Audience: Old managers and newly appointed leaders and managers.

Key learnings and outcomes: Developing leadership character, improving leadership competence, building and developing effective teams, harness the potential and strength of team and delivering results through teams. Improved team and business performance.

3. ENTREPRENEURIAL MINDSET

Entrepreneurship is at the centre of every solution the world has ever seen. It is the driving force behind the significant progress and change their world has seen. Leading organisations have realised the importance of developing and cultivating an entrepreneurial culture to thrive in a competitive world.

Thriving nations see SME development as a critical part and key lever of economic development. We have a responsibility to not only develop survival businesses but entrepreneurs with the right mindset to solve problems in society and the world.

Target Audience: Entrepreneurs, Founders, Intrapreneurs, Business owners, ESD practitioners.

Key learnings and outcomes: Thinking like an owner, building resilience, dealing with failure, spotting and monetising opportunities.

4. BUSINESS GROWTH STRATEGY

Growth in business never happens by chance, it happens through deliberate and intentional effort. It is a direct result of a series of strategic actions taken by the leadership team. Every business has a strategy but often they are by default and not by design. Some of the existing strategies have not been critiqued for relevance in the changing environment. This is a workshop for entrepreneurs and business owners who want to distinguish themselves from their competition and stand out in their industry.

Target Audience: Entrepreneurs, ESD practitioners, business owners.

Key learnings and Outcome: Crafting a clear value proposition, creating successful go to market strategies, prioritising growth projects. Developing a Business growth strategy

5. FINANCIAL WELLNESS

Employee wellness often neglects the important contributor to overall wellness -finances. Consequently, wellness interventions are short lived. This keynote and masterclass are designed to give the audience the skills to improve their financial wellness index and successes with their money regardless of how much they earn.

Target Audience: Managers, Supervisors, leaders, all staff.

Key learnings and Outcomes: Tools to manage and maximize money, setting and achieving financial goals, debt strategies, financial planning. Improved confidence with money. This ultimately results in reduce absenteeism and a healthy and motivated workforce.
