INNOVATION, CREATIVITY & ENTREPRENEURSHIP

PROFESSIONAL PORTFOLIO

MY PASSION

2019 WOMEN LEADERS OF THE WORLD

I have had a privilege of working globally in the innovation space in the past two decades. It has been a wonderful learning experience that has culminated into starting a school of innovation, creativity and entrepreneurship at Henley Business School. I have been blessed to be a part of the transformation of individual lives, seen birth of corporate strategies and new trends transforming organisations through innovation and creativity.

OBJECTIVE

The objective of this document is to highlight professional achievements.

SKILLS

Strategy. Innovation.
Executive education:
design. Programme
Directing. Programme
delivery. Facilitation.
Technology.
Design Thinking.

My PhD research exposed me to new trends and connected me to latest research in the field of innovation and gave me further practical experience in the field of innovation and creativity. The study gave birth to my book: The Alchemy of Design Thinking, which was launched in New York in June 2016.

In 2009, I founded and launched the Humanities Central Technology Unit at the University of Cape Town, which integrated technology and the various disciplines of Humanities. Our mandate was to digitize Humanities and build both technology infrastructure, and solutions to use technology to elevate teaching of Humanities. I did this work for 7 years until 2015.

In 2015, I founded Henley Innovation, Creativity and Entrepreneurship (ICE) centre where I have designed, delivered or directed design thinking courses to over 50 organisations in Africa and abroad. I have also developed an action learning project framework based on design thinking where I have coached over 50 innovative projects and some have become global award winning businesses.

In 2018, I also founded my company the Alchemy Inspiration, which offers business consulting and empowering organisations to be innovative.

EMPLOYMENT EXPERIENCE

CEO & CO-FOUNDER
ALCHEMY INSPIRATION

I started a company with three legs: Consulting, Education and a Foundation. The guiding principles are based on my PhD thesis, we follow human-centric approaches to design and deliver projects and education solutions to under-privileged communities.

HEAD OF HENLEY ICE (INNOVATION, CREATIVITY, ENTREPRENEURSHIP)
HENLEY BUSINESS SCHOOL

• OCTOBER 2015-PRESENT

I started the school of Innovation, Creativity & Entrepreneurship at the Henley Business School Africa – which is among the top 1% business schools in the world. My work is to design programmes in these areas and develop a business strategy for the school.

HEAD OF HUMANITIES CTU

- UNIVERSITY OF CAPE TOWN
- JANUARY 2009 – SEPTEMBER 2015

I started a Central Technology Unit (CTU) at the University of Cape Town whose focus was to digitize Humanities, develop digital strategy and implement it to innovate various Humanities departments. Some of our successes includes implementation of Music technology laboratories, language technology center, film & media laboratories, state of the art postgrad centre for Humanities to mention a few.

UNIVERSITY OF CAPE TOWN - LECTURING ROLES: 2012 – 2015

- GRADUATE SCHOOL OF BUSINESS
 - Programme: Associated in Management
 - Course: Business and Technology
 - Programme: Postgraduate in Management Studies
 - Course Information Technology Management

- DEPARTMENT OF INFORMATION SYSTEMS

Programme: Post-Grad in Information Systems
Course: Emergent Project Management

Programme: Business Analysis and Systems Analysis Course
New Paradigm Thinking in Project Management

LECTURER AND ONLINE TUTOR

- Getsmarter : 2016
- Programme: UCT Certificate in Project Management Course

Educators Conference and Competitiveness through Innovation for the corporate creativity conference (2009 - current)

- Part-time lecturer on new paradigm thinking on Project Management in the Postgraduate course in the Information Systems Department, UCT (2011 - 2015)
- Part-time lecturer on Business and Technology Course and Management Information Systems at Postgraduate courses at the UCT Graduate School of Business (2014)
- Design Thinking workshops and innovation workshops
- Co-Lecturer at in the MBA course on Creativity, Design and Strategy (2009-2010)

LEADERSHIP ROLES:

- Member of the Humanities Faculty Executive
- Member of Deans Advisory Committee
- Attend Faculty Board and advise on Technology issues
- Technology advisor on the Cornerstone University strategy group that launched the academy into a virtual learning institution
- Member of University of Cape Town ICT user group that initiates university-wide technology projects
- Co-chair of the Humanitec Committee which is a custodian of IT and equipment in Humanities and also advises on strategic equipment applications
- Coach of the Namibia Business Innovation Institute
- Wisdom board member for the South African Sustainability Summit

INNOVATION PROGRAMMES EXPERIENCE

Innovation Programmes at Henley Business School:

Liberty Group – I designed an innovation catalyst programme for the Liberty group based on my PhD model, which identified core pillars that bring transformation in innovation programmes. The pilot programme ran in 2016 and the results were outstanding from both the delegates perspective and organisation's perspective. The programme is now being rolled out to more delegates this year.

Link:

<http://redzebra.za.com/creativity-and-innovation/>

Bankseta – International Development Programme

I designed and coached the action learning projects for the Bankseta programme whose theme was disruption, innovation and digital. The entire project journey was designed using my PhD project model and the results were outstanding. The Bankseta clients said in their history they have never had such impressive projects from a programme. All the projects, presented and marked by independent panelists from industry, Bankseta and Henley, were all awarded a distinction.

Discovery Leadership Programme

I ran a two day programme for the Discovery Leadership Programme on creative problem solving and project artistry which emerged from my PhD thesis. One of the action learning groups used this process to guide their action learning projects. This group did not only get the best project award, but also won Discovery CEO's innovation award in 2016.

Accredited programmes at Henley

We also designed and launched the world's first Masters in Business Administration (MBA) for Creative Activists & Innovators which started in 2017. This innovative approach to an MBA was inspired by the fact that while I studied an MBA at the University of Cape Town, the creativity and innovation elective I took was the most transformational and eye opening experience that empowered us to think and create. The core of this new MBA is exactly this. To

Namibia

Namibia Institute of Innovation and Business (NIIB)

- I designed a course for the Namibia institute of Innovation and Business. I created the course manual, course workbook and online course materials from sketch, aligned with a model from a paper I had just published in the SA Innovation Summit journal. I coached the leaders of the institute to roll it out.
- I ran a number of workshops for the institute on innovation and creativity from 2009 and also in 2015.
- I was also a judge in their innovation competitions in 2015.

Namibia Business School

I offer Design Thinking courses at the Namibia Business schools to corporates as open programmes.

KnowInnovation

I joined Knowinnovation in 2015 and since then we have run the Future Africa initiative, whose mandate is to develop leadership skills of leading academics in the continent of Africa. This programme attracts top scientists in the continent to co-create projects that shape the face of leadership in the country. We design their programmes, deliver them and consult with them on continuity and expansion.

United Nations Population Fund (UNFPA) innovation programme – Kenya

Through knowInnovation, we were tasked with designing and delivering an innovation programme for their innovation champions from various countries in Africa.

University of Cape Town

Over and above the work I did at UCT, I also had my own academic projects in the innovation field which included:

1. MBA Online Course of creativity and innovation
2. Design thinking course in the Postgrad in Educational Technology Programme
3. Business and Technology Programmes at the Graduate School of Business (University of Cape Town (UCT))
4. Project Management Programme in the Information Systems Department at the University of Cape Town

Journal Articles:

1. APPLYING CREATIVE PROJECT MANAGEMENT – A STUDY OF ICT PROJECTS IN HUMANITIES FACULTY IN SOUTH AFRICA

Published in the International Technology, Education and Development Conference

The dawn of the new era where Humanities meet with technology face-to-face has reached a diverse faculty in a developing country. In a globally

competitive market, educational institutions are constantly under pressure to keep up with the changing teaching environments that are increasingly deploying technology. In the last decade, the Humanities faculty at the University of Cape Town (UCT) has transformed teaching platforms in most discipline specific areas to accommodate these changing needs. The technological changes led to huge capital investments and unforeseen financial spend, while also unveiling a world of possibilities for various departments leading to increased Information and Communications Technology (ICT) deployment projects to enhance teaching. This has led to the ICT unit within the faculty to research on best project management practices that will allow creative establishment of unique technological spaces for teaching and research for specific fields in the faculty. The challenge being to create highly specialised spaces within the time constraints, allocated budgets and human resources. This involved capitalising on expert knowledge in the fields of study and IT experts' knowledge and possibilities within the University's IT infrastructure and policies. There had to be efforts toward "Re-thinking project management" in order to conceptualise project management in this space and suggest good practice. The paper essentially outlines the potential contribution Eddie Obeng's framework can have on creative IT project management, project phenomena and highlights project leadership principles. This paper achieves this by using images of projects which seek to encourage a more pragmatic and reflective approach on projects, based on deliberately seeing projects from multiple perspectives, exploring the insights and implications which flow from these, and crafting appropriate action strategies in complex situations.

<http://library.iated.org/view/MAKHOALIBE2012APP>

2. DESIGN THINKING AS A CATALYST FOR A CULTURE OF INNOVATION IN ORGANISATIONS: A CASE OF PROJECT MANAGEMENT

PULENG.MAKHOALIBE@GMAIL.COM

@CREATIVEPULENG

+27825553730

[HTTPS://WWW.LINKEDIN.COM/IN/PULENG-MAKHOALIBE-5A77519/](https://www.linkedin.com/in/puleng-makhoalibe-5a77519/)

Published in the South African Innovation Summit Journal

One of the increasing challenges facing organisations in the 21st century is how to develop a culture of innovation. For organisations to stay competitive, innovation cannot be a once of act, but needs to be embedded in an organisations' social practice. This challenge is compounded in project management where opportunities for innovation are often lost through mechanist and determinist approaches which often chokes imagination, creativity and innovativeness. This paper argues that augmenting Appreciative Inquiry approach with Design Thinking principles has potential to foster a culture of innovation required for organisations to remain relevant and competitive in the 21st Century. In this paper, the authors uncover how Design Thinking speaks to this inherent organisational need and how project managers may draw on the power of design thinking to address "wicked" problems confronting them daily in navigating the complexity inherent in innovative projects.
