

LEIGH-ANN PAULICK

Journalist | Broadcaster | Moderator | Speaker | Host

Making sense of the ideas shaping human performance and the future of how we live and work.

PROFESSIONAL POSITIONING

Leigh-Ann Paulick is a journalist, broadcaster, moderator and speaker with more than 30 years' experience in South African media.

Her career began in journalism and evolved through radio and television broadcasting into interviewing, live moderation, storytelling and programme development. Since joining SuperSport in 1998, she has worked across a wide range of sporting codes and some of the world's biggest sporting events, including five Olympic Games, the 2010 FIFA World Cup and all four tennis Grand Slams.

Today, Leigh-Ann's curiosity extends beyond sport into human performance, health, longevity, science, technology and adaptability.

Through The Enhanced POD, she interviews scientists, researchers and practitioners, exploring emerging ideas and translating complex subjects into conversations that a mainstream audience can understand and engage with.

Her particular strength lies in the combination of journalistic curiosity, rigorous preparation, live broadcasting experience and an ability to connect with people.

She asks good questions, finds the thread that matters and helps audiences see familiar subjects differently.

WHAT LEIGH-ANN OFFERS

KEYNOTE SPEAKER

Ideas-led talks exploring human adaptability, experience, performance and the changing world around us.

MODERATOR & FACILITATOR

Intelligent, well-researched moderation for conferences, panels, fireside conversations, executive roundtables and thought-leadership events.

MC & HOST

Experienced live-event host bringing energy, polish and genuine audience connection to corporate, sporting and cultural events.

MEDIA & COMMUNICATION TRAINER

Practical training in media interviews, communication, storytelling and communicating complex ideas clearly.

SCIENCE & HUMAN PERFORMANCE COMMUNICATOR

A journalist's approach to making emerging science, health and human-performance research accessible without oversimplifying it.

SIGNATURE SPEAKING TERRITORIES

Topics currently in development.

BUILT TO ADAPT

Can humans keep up with the world we've created?

Leigh-Ann's flagship keynote explores human adaptability in a world being reshaped by technology, AI, longer lives and accelerating change. Rather than treating adaptability as a corporate buzzword, it asks what human beings actually need to remain capable, curious and effective when the environment around them keeps changing.

Themes: Adaptability · Human performance · AI & technology · Resilience · Lifelong learning · Identity

THE POWER OF EXPERIENCE

What if getting older isn't about losing capacity — but understanding it differently?

An exploration of age, experience, relevance and reinvention. Drawing on Leigh-Ann's own career evolution and experience of competitive strength sport at 51, the keynote challenges assumptions about what people are capable of at different stages of life.

Themes: Experience · Reinvention · Age · Women's careers · Strength · Human potential

THE QUESTIONS THAT CHANGE EVERYTHING

What happens when we stop accepting the question we've been given?

A keynote built around one of journalism's most powerful tools: the question. It explores how the questions we ask shape what we notice, investigate and ultimately make possible — in leadership, business and our own lives.

Themes: Curiosity · Critical thinking · Assumptions · Communication · Leadership · Innovation

HUMAN PERFORMANCE FOR A LONGER LIFE

An accessible exploration of what science is teaching us about maintaining health, strength and capability across longer lives. The emphasis is on translation: taking complex research and asking what it actually means for human beings.

Themes: Healthspan · Strength · Exercise · Physiology · Longevity · Behaviour change

MODERATION & LIVE CONVERSATION

Leigh-Ann brings a journalist's curiosity and a broadcaster's ability to manage live conversation.

Three decades in live broadcasting have required her to listen, think and respond in real time — often while managing competing personalities, information, time constraints and an audience.

Her moderation style is informed, inquisitive and conversational. She prepares thoroughly, understands the subject and listens for the thread beneath the obvious answer.

Particularly suited to:

- Leadership and business conferences
- Health, science and innovation events
- Executive roundtables
- Fireside conversations
- Expert panels

- Women's leadership events
- Sport and sports-business forums
- Thought-leadership events

- Janine van Wyk — 185 Book Launch — Host, 2026

THE ENHANCED POD

Conversations on longevity, wonder, and the art of thriving.

The Enhanced POD is Leigh-Ann's platform for exploring the science, ideas and people shaping human performance and potential.

Through conversations with scientists, researchers, medical professionals and practitioners, Leigh-Ann investigates complex subjects and translates them for a mainstream audience.

The podcast also serves as an ongoing research and development platform for her speaking work.

TESTIMONIALS

“Leigh-Ann Diedloff was an excellent MC for our GolfRSA Women in Golf Business Breakfast! Highly professional, polished, and genuinely inspiring throughout. She invested real time in researching our topic, which allowed her to deliver thoughtful, engaging content that significantly contributed to the event's success.”

GolfRSA

“We thoroughly enjoyed Leigh-Ann's presentation on Health coaching. She was well prepared, articulate, engaging and demonstrated a strong knowledge of the topic.”
